

**Position Vacant:**  
**Graduate Analytical Chemist**

***"Working with Chemika, you're supporting a team with principles, dedicated to meeting your goal of improving the health and happiness, of all people, with 20 years of experience in the area of chemical testing."***

Chemika is a privately owned contract testing laboratory servicing manufacturers of pharmaceutical and nutritional products for human and veterinary use.

Chemika operates in compliance with the Australian Code of Good Manufacturing Practice and is licensed with the TGA and APVMA. We are committed to providing a high quality service to our clients with a high level of GMP compliance. In 2020 we will be expanding our accreditations to include the US FDA.

An opportunity exists for a recent graduate to join our team of exceptional analytical chemists. The laboratory undertakes a considerable scope of testing using instruments such as HPLC, GC, GCMS, AAS, ICP, TOC in addition to a wide variety of wet chemical techniques. The variety of equipment and excellent laboratory facilities make the position an ideal place to start a career in science.

Reporting to the Laboratory Manager, you will be working in a very busy team environment and you will be required to display initiative, have excellent communication skills and a very good attention to detail.

Your responsibilities as an analyst will include:

- Working in a safe manner with regard to yourself and other staff.
- Performing chemical and physical testing on raw materials and finished products
- Performing calibrations and scheduled maintenance as assigned
- Performing the above functions and related activities in accordance with Chemika's quality system.

Applicants must have a degree in Science with a major or double major in chemistry. An Honours year completed by thesis will be an advantage to candidates in the selection process. Although no experience will be necessary and training will be provided, applications will also be considered from recent graduates with relevant experience. Applicants will need to demonstrate excellent written and oral communication skills and an eagerness to learn.

Applications should include a brief cover letter as well as their personal resume and apply to:

careers@chemika.com.au

Applicants may be required to undertake psychometric testing as part of the recruitment process.

31<sup>st</sup> July 2020.
